

I Congreso Alimentación Animal:
Seguridad Alimentaria e Innovación

1st Conference of Animal Food: Food Safety and Innovation

PER HÄGGBLOM

Per Häggblom is professor in feed hygiene at the National Veterinary Institute in Uppsala, Sweden. He has for many years worked with different aspects of salmonella and other microorganisms also including mycotoxins in animal feed. He is currently involved in EU-funded research dealing with traceability aspects in the feed chain. He has worked as a national expert in the field and also for the WHO and EFSA.
